

# NEW SNITE PRO

Standard lengths

The Snite Pro is a robust and efficient LED light that easily replaces fluorescent lamps thanks to the grounded 3-prong power connection. It uses less energy, has a longer lifetime, and maintains its light quality over time.

## Product Characteristics

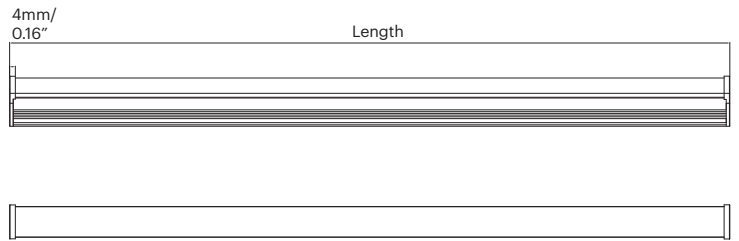

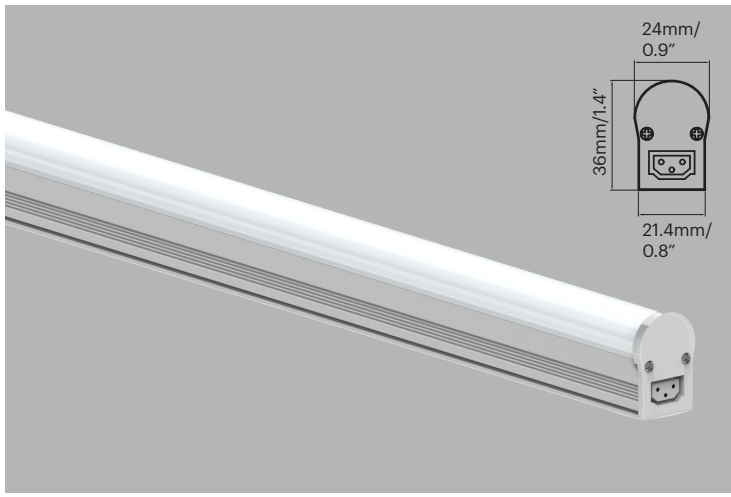

- Available in six standard lengths
- Fixtures are easily linkable via connectors
- Standard in 3000K, and 4000K
- High efficiency with 105lm/W
- CRI 80
- 3-prong power connection, ideal to replace old fluorescent lamps
- Maximum interconnection of 15x 56" (total: 21m/70ft.) fixtures
- ETL Sanitation Mark: NSF 2
- Wood mounting kit included

## Suitable Applications

- Retail Displays
- Cabinet Interiors
- Under Cabinet
- Casework
- Shelving
